

Provider Newsflash

April 2015

Fractional Units

Purpose of this communication

- To inform network providers of a change to CareCentrix's fractional units billing policy effective May 1, 2015

What do I need to do?

- Effective May 1, 2015, HCPCS codes must be billed in whole units of 1 or greater. Invoiced units greater than 1 must be rounded up or down to the nearest whole number.
- When billing for services that require a National Drug Code (NDC), the NDC quantities may be submitted in fractional units with up to 2 decimal points.
- Claims that do not conform to these requirements may be returned or rejected.
- Any rejected or returned claims should be corrected and resubmitted to CareCentrix within the original timely filing timeframe as specified in our Provider Manual.

Is there anything else I need to know?

- If you have any questions, please contact your CareCentrix Provider Operations coordinator for assistance.

Thank you in advance for your cooperation and continued partnership.
